

<i>Preface</i>	5
S.R. Chalov, A.S. Tsyplenkov <i>Short-term dynamics of river water turbidity</i>	7
N.N. Nazarov, S.V. Kopytov, A.V. Chernov <i>Development of the Vychegda-Vyatka-Kama drainage basin and changes in the outflow directions related to the Late-Glacial morphological conditions (North-Eastern European Russia)</i>	15
S.E. Korkin <i>Dynamics of the River Channel Deformations along the Latitudinal Section of the Middle Reaches of the Ob River</i>	21
A.M. Gareyev <i>Current trends in the development of channel deformations in small and medium- sized rivers (rivers of the Southern Urals and the Cis-Urals – the case study)</i>	27
A.S. Zavadsky, V.V. Surkov, P.P. Golovlev, S.N. Ruleva, I.V. Krylenko, I.N. Krylenko, M.D. Goryachko, M.A. Samokhin <i>Strategy of protection against hazardous channel and hydrological processes in rivers of developed territories and territories with focal development</i>	33
A.S. Zavadsky, D.V. Botavin, P.P. Golovlev, N.M. Mikhailova, E.A. Morozova, E.V. Promakhova, L.A. Turykin <i>Results of hydrological studies and channel analysis of the Ganges (Padma) River at the construction site of the “Rooppur” NPP</i>	41
A.V. Chernov <i>Morphological features of river channels and floodplains in the Far East of Russia under various natural conditions</i>	55
R.S. Chalov <i>Channel processes and its management on navigable rivers</i>	61
O.G. Obodovskiy, K.R. Mechkin <i>The Dnieper Cascade as part of International Waterway E40</i>	69
G.L. Gladkov, V.M. Katolikov <i>Channel regime and navigation conditions of the Lower Don</i>	77
L.A. Turykin <i>Determination of the ecologically effective channel depth for the purpose of extraction of non-metallic building materials in lowland rivers</i>	87
S.N. Ruleva <i>Channel processes of the Ob River and the use of the river for water transport purposes</i>	95

Preface

Geography and Tourism is an interdisciplinary scientific journal aimed at promoting the results of theoretical and empirical research in geographical sciences and tourism. It is a pleasure to announce that in 2015 the journal scored 6 points on List B of the Ministry of Sciences and Higher education.

Following the decision of the Minister of Science and Higher Education, the journal has been granted funds for pursuing activities aimed at promoting science: reviews of articles by foreign scholars/experts and translation of submitted articles into English in 2017/2018. The tasks are financed under the agreement no. 777/P-DUN/2017.

Current issue of the journal includes papers presented on Scientific Conference 'International waterways - safety and development' that was organized on 14th – 16th June 2018 under the patronage of Polish Geographical Society – Hydrology Commission and Interinstitutional Scientific Council on Erosion, River Channel and Mouth Processes. The conference was a special anniversary event celebrating 70th birthday of professor Zygmunt Babiński. We sincerely thank the authors and reviewers for their contribution to the development of the journal.

We encourage you to submit research results for the next issues of Geography and Tourism. Instruction for authors is provided on the journal webpage www.geography.and.tourism.ukw.edu.pl.
